

# 3.5" Air Vent

SKU: PCF-PLV

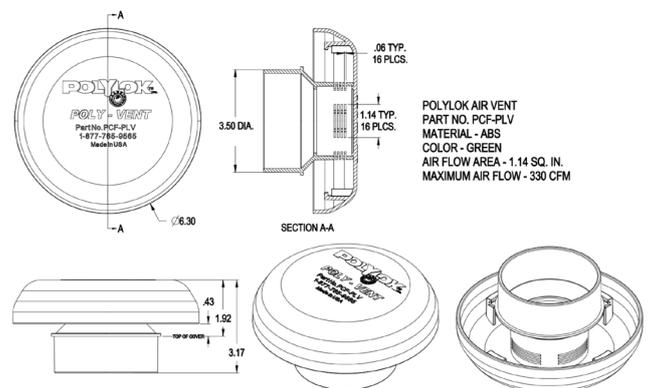

The Polylok Air Vent provides ventilation in chambers or enclosures with air pumps, or motors. It fits most plastic covers. Ideal for new or retrofit applications, and installs easily.

## Key Features

- Low profile allows it to fit all size covers.
- Fits new or retrofit applications.
- Weather resistant.
- Opening area blocks animal entry.
- Green colour blends with environment.
- Highest concentration of UV protection.
- Independently tested to 330 CFM.
- Simple installation into a 3 1/2" drilled hole.

## Installation

- Easily installed in any size cover by drilling a 3 1/2" hole.
- The Air Vent has a ring that will seat it when pressed in place.
