

Polylok Riser Kits

Various widths and heights available

Polylok modular riser kits are designed to be adaptable, easy to install, and reliable solutions.

Polylok riser kits are ideal for upgrading or adding inspection or access openings for existing domestic wastewater treatment systems and septic tanks. With various widths and heights to choose from, Polylok has a solution to meet most site requirements. These riser kits are easier and safer to install than concrete risers which is why over 8 million Polylok risers are in the ground today.
